

ROBERT CRITTENDEN. "CORN KING" WINS MANY PRIZES AT FAIR

There were only two individual farm exhibits at the county fair. The one awarded first prize belongs to Robert Crittenden.

Mr. Crittenden for the past four years has won first on corn and is entitled to be known as the "corn king" of the county. His old rival is Millard Wilson of Glenn. Mr. Wilson has better land than Crittenden, he has won many prizes on corn but it is stated that he does not take the pains that Crittenden does in seed selection and he has not observed quite so well the judging points and in this way has given his rival the advantage of him. Mr. Crittenden husked five acres of corn from which he selected his 100 ears. He spent a week's busy work getting ready for the fair on his corn alone. But he says he would have done this any way for the reason he uses this amount of care in selecting his seed. However he has been well paid for his work. He is said to have won as much as \$1,000 in prizes. Two wagons, one set of harness, a sink, tank and much other menagerie besides some cash went to his credit.

The Crittenden individual display consists of Silver Mine corn, Johnston county white corn, Acacia cotton, red top cane, pop corn, peanuts, kaffir, blackeye peas, whippoorwill peas, Spanish peanuts, acorns, stock beans, sun flower seed, Kentucky wonder beans, butter beans, Bliss Triumph potatoes, Porto Rico yams, Bradley yams, Cucumbers, Red and yellow onions, onion sets, radishes, carrots, tomatoes, okra, two varieties of peppers, water melons, gourds, citron, Missouri nipin apples, Mammoth black twig apples, Bartlett pears, Keiffer pears, plums, Manlio Ross and Elberta peaches, strawberries, concord grapes, wild grapes, sumach, pecans, castor beans, persimmons, alfalfa, sweet clover, oats, wheat, millet, Bermuda, Johnson grass, Sudan grass, crab grass, turkey peas, milo maize, asparagus, cantaloupes and ten varieties of wild grasses.

Mr. Crittenden won first on individual exhibits and received a wagon and \$50 in money. He won first on ten ears of late corn and on 100 early ears. He won the sweepstakes prizes on both corn exhibits. He won first on big peppers, radishes, Bartlett pears, Missouri nipin apples, black twig apples and second on native grasses. First on longest alfalfa and first on sweet clover, and first on forage crops.

In the poultry department he won first on white Leghorn cock, first and second on hens, first on pen of chickens. In the swine prizes he took first on sow and litter, second and third on sow, third on litter under one year and third on pen of feeders.

PROOF EVIDENT OF THAT COLD WAVE

All hail the coming of wintry blasts! Wild geese were seen overhead this week. The mink pie has made its appearance at the restaurants. Oysters are found in several of the eating houses. Cleaners and dyers have started propaganda on wearing out last winter's clothes. Clothiers have the heavy-weights on display.

Thus, the debonaire and the epicurean have this proof to submit that the heat wave is almost past.

MOTHERS OF JUNIOR HIGH PUPILS MEET MONDAY AFTERNOON

Mother's from all wards in the city who have children in the Junior High School are urged to be present at the Junior High School building tomorrow afternoon at 3:30 o'clock when the organization of the Junior High School Mother's Club will be perfected.

This is a postponed meeting, due to the fact that there was not sufficient representation from the entire city at a meeting called last Monday afternoon. Hence it is urgently requested that mothers from every ward be present tomorrow in order that no further delay may be occasioned.

Parachute Jumper Killed
Miles City, Mont., Sept. 17.—C. H. Larson, 23, parachute jumper of Casper, Wyoming, was instantly killed near Glendive, Mont., late yesterday, when after landing on the top of a high butte, he was swept over by a hundred foot cliff by a sixty mile gale.

Larson dropped from an altitude of 2,600 feet from an airplane piloted by Bert Cole of Casper. Searchers who found the body said that Larson had been dragged on his knees about 100 feet when he went over the edge of a cliff his neck was broken.

Apologizes for Blocking Traffic

Wilson, Okla., Sept. 16.—There is one man in Wilson who doesn't believe in blocking traffic. He is "Daddy" Vaughn, transfer man.

Last week, Mr. Vaughn was run down by a couple of young women in a high-powered automobile on Main street. Although he was badly bruised and limping, he made his way to a newspaper office and asked that a card of thanks be run.

"I want to apologize to the young women," he said. "I didn't know I was getting in their way. The collision had a tendency to decrease their speed from about 40 miles an hour to fifteen. Therefore I'm sorry I got in the way."

SHACKLETON SAILS FROM LONDON ON ANTARCTIC VOYAGE

(Continued From Page One)
ions, are expected to be aboard when the tiny but staunch craft, "built for tight corners" leaves Capetown, South Africa for two years of buffeting its way through the Antarctic.

The Quest, which uses both sail and steam and which may cover more than 20,000 miles before its return home, was constructed according to the personal ideas of Shackleton who has made several voyages to the Antarctic. He commanded the British expedition of 1907-09, which reached within 97 miles of the South Pole and also the expedition of 1914-11 to Weddell sea. His present ship is 111 feet long, 25 foot beam and 12 feet in depth. She was built in Norway in 1917 of oak, pine and spruce and has been tested in heavy ice. Her sides are two feet thick and her bows are of solid oak sheathed with steel. Her steaming radius is 8,000 miles and, under sail, in a stiff breeze The Quest can make eight knots. She carries wireless equipment and an airplane with a 25 foot wing spread. She has a glass enclosed bridge and a lookout that resembles a flour barrel.

Major C. R. Carr, an English soldier of fortune, the aviator of the expedition plans to fly above the Antarctic fogs to scout out passages between the floes through which The Quest may pass. He is also the photographer and naturalist of the expedition. The biplane he will use is one of only three that were ever built. The other two were flown, respectively by Colonel Borden, V. C., the pioneer flyer from England to Mesopotamia and by Sir Ross Smith, the first man to fly from England to Australia.

Other members of the Shackleton party, besides those already mentioned, include Frank Eild, second in command; Frank Worsley, commander; Maj. A. H. Macklin, biologist; R. Stenhouse, lieutenant commander; Captain L. Hussey, meteorologist; J. S. W. Marr and N. E. Mooney, cabin boys.

To Explore Petrified Forest
The petrified forest that will be explored was found by Shackleton on the island of Trinidad at a certain point where he landed from Capt. Robert F. Scott's ship, the Discovery, more than 12 years ago. Gough's Island is eight miles long and 4,000 feet high and in 1904, when visited for the first time on record by members of the Bruce expedition, was found to have at least four hitherto unclassified species of birds. Tuanki, the "lost" island, has been mentioned in old nautical records but apparently has disappeared. A spot in the Pacific where it is supposed to be will be dredged for evidence to show that it is recently submerged land.

There is already in the South Polar regions another British expedition. It is led by Com. John L. Cope, who left Norfolk, Va., on October 27, 1920, for a six year's sojourn in the ice fields. The party is aboard a 7,000 ton whaler, the Thor I., and three

auxiliary ships, and numbers more than 100 men. One of its purposes is the commercial development of the mineral wealth of Antarctica.

RYONIS CLUB TO RESUME MEETINGS

After a recess of several weeks the Ryonis Club, of which Mrs. John Whitman is president, will resume regular weekly luncheon sessions, Wednesday noon at First Presbyterian church.

The Ryonis Club was organized May 5, with a charter membership of about 25 members. The membership has increased until now the club has enrolled something like 75 members with many on the waiting list.

NEW ELECTRICAL SHOP TO OPEN IN ARDMORE

Aubrey Fonville has opened a new electrical shop in Ardmore and is preparing to handle a complete line of appliances and power plant equipment. He will also be equipped to handle any class of electrical wiring.

Mr. Fonville comes here from Mississippi, where he was engaged in business. Prior to this time he was connected with the electrical department of the United States Steel corporation at Gary, Indiana. He is a graduate of the Coyne Electrical Engineering School of Chicago.

The First Presbyterian Church
Sunday school at 9:45 a. m.
Meeting of session at 10:45 a. m.
Bible Worship at 11 a. m.
Christian Endeavor at 7 p. m.
Evening Worship at 8 o'clock.
An excellent program of songs has been arranged for the evening hour. A cordial invitation awaits you at any of our services.
CHAS. C. WEITH, Pastor.

HAY FEVER ASSOCIATION PLANS FIGHT ON OBJECTIONABLE WEEDS

Duluth, Minn., Sept. 17.—Men, women and children sufferers from hay fever from Wisconsin, Iowa, Nebraska, Kansas, Oklahoma, and Minnesota attended the annual meeting of the hay fever association which just closed here. J. J. Fitzgerald, Omaha, was elected president and W. H. Drummond, Madison, Wis., secretary.

Resolutions were adopted to fight objectionable weeds. Dr. Drummond said the ailment was becoming more serious each year and national aid was imperative in combatting the weed evil.

SELL 50 CENT BOTTLE LIQUOR PAYS FINE \$100 MUST SERVE 30 DAYS

A. W. Cutlers of Muskogee county sold a bottle of liquor in 1919 for which he received fifty cents. As a result he will have to pay a fine of \$100, and serve 30 days in jail according to the decision of the criminal court of appeals which passed on his case today. The appellate court affirmed but modified the sentence of 90 days in jail and a fine of \$250 imposed by the trial court.

ARRAIGNMENT OF ARBUCKLE RESET TO SEPTEMBER 26TH

(Continued From Page One)
dial witnesses against Arbuckle, to tell to the jury the alleged facts that she detailed to the police and the district attorney. As a result of her failure to testify the jury was compelled to postpone for 24 hours a decision to indict Arbuckle, the district attorney said. A manslaughter indictment was returned against him.

Dr. Arthur Bearse, house physician at the St. Francis Hotel where the party took place in which Arbuckle was alleged to have fatally injured Miss Rapp, is still being sought by the district attorney and the police. Dr. Bearse attended Miss Rapp in the hotel. His testimony is wanted before the grand jury.

He is said to be on a hunting trip. **Mob Destroys Film**
Thermopolis, Wyo., Sept. 17.—A mob of about 150 men and boys, many of them cowboys, entered a theatre here last night where a "Fatty" Arbuckle film was being shown, shot up the screen and seized the film, taking it into the streets and burning part of it. F. Z. Buzzetti, manager of the theatre said today that representatives of the purity league had visited him and asked him not to run the picture, earlier in the day but that he had refused their request.

No damage was done to the theatre other than shooting up the screen. Mr. Buzzetti said and no attempt was made to injure him.

Ponca City, — The herd of Karkul sheep consisting of approximately 250 head and said to be one of the three big herds in the country has been purchased by the "B" Ranch near here and transferred to Kay county. The herd formerly belonged to the Goodnight Ranch in Western Texas.

STUNNING COSTUMES IN THE NEW PLAY "PAYING THE PIPER"

A wild debutante with a penchant for clothes of the most stunning kind—that is the role that Dorothy Dickson has in the George Fitzmaurice production of "Paying the Piper," which comes to the Adelphi theatre next Thursday and Friday, and in order to act the part convincingly, the actress wears a succession of gowns that constitute a veritable fashion show.

Among the costumes is a smart sports coat, a Chanel production that has only recently been sent over from Paris. It is a straightline model the material being a rough cloth of a dull rust color barred off in great squares with narrow lines of gray duvetyn couched in cross stitch with black thread. Gray duvetyn is used for the high crush collar. Lewis of Paris has made the hat that Miss Dickson wears with this coat, one of the off-the-face modified Napoleonic shapes with upturned brim formed of a fabric made with white baby ribbon run through rings cut from brilliant tin.

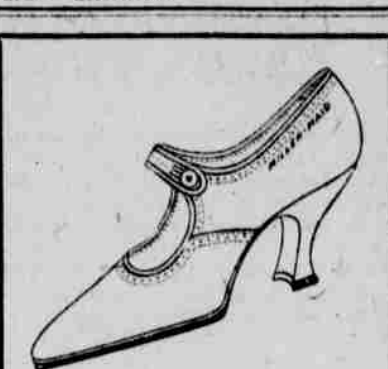

A navy serge frock is made attractive with inserts of silver lace placed in panels at the lower part of the straightline model. Among the numerous negligees is one of gray georgette with bands of gray tux and an other of yellow georgette with red roses and lined in red georgette. An evening frock of chartruese chiffon velvet, with an oddly draped bouffant at the sides makes a youthful creation.

W. B. WATSON OF CHEEK RECEIVES PAINFUL INJURIES

W. B. Watson of Cheek was run over and severely injured at the fair grounds late yesterday afternoon while watching some running horses that were being worked out on the track. The driver and name of the horse could not be obtained, according to a statement of Dr. Hardy at the Sanatorium where the injured man was taken immediately following the accident.

Watson had several ribs crushed and his back, face and arms badly skinned and bruised. At the sanatorium last night he was resting easy but was unable to make any statement. Dr. Hardy stated that the injuries were necessarily painful but in no wise dangerous.

Attention U. C. V.
Members of the John H. Morgan Camp, U. C. V., are requested to meet at the courthouse Sunday afternoon at 3 o'clock as business of importance will come up, according to announcement of D. J. Kendall, Commander, issued by Adjutant H. Sutherland, Saturday afternoon.

MAN TURNS GUN ON SELF AFTER KILLING WOMAN

(Continued from Page One)
tins would come down town Friday night.

When he called the young woman from the office, he brought up the subject of their marriage, he said. Then, she declared she would never marry him; that she was through with him. It was then that he fired the shot he declared.

Came from Arkansas

The dead woman was about 25 years old and came to this state from De Queen, Arkansas where her father, Hattie Miller is believed to be living now. She was married to Strawn in Pauls Valley on April 15, 1917, and for a time lived there, and at Breckenridge, Texas, and then at Healdton.

During the greater part of her time in Healdton she lived at the home of Mr. and Mrs. Miller. At odd times she had been employed. According to Mr. Miller she had known Smith only a short time, and he states that Smith has asked Mrs. Strawn to marry him. He knew nothing of further relations of the two, he said.

Smith had been in the Healdton jail for several years, and is about 30 years old. Little is known of him, it is said, because he was a quiet, unassuming individual. Those who knew him speak well of his character and reputation.

The wounded man was brought to the county jail by Deputy Sheriff Bud Ballou, who went to the scene of the shooting Friday night.

Woman Divorced Here

In her petition for divorce, filed about two months ago, Mrs. Strawn charged her former husband W. D. Strawn with adultery, gross neglect and non-support. She was forced to work for a livelihood she asserted, and at one time had to pawn her jewelry to go to him in Breckenridge, Texas. They moved to the Texas oil town about a year ago, where they maintained a boarding house, but she was persuaded to return to Oklahoma. Upon her return with another woman, and returned to Oklahoma about three months before the petition for divorce.

CITIZENS CALLED IN MASS MEETING ON THURSDAY NIGHT

(Continued From Page One)
days to six months many cases have caused further delay.

Bond Issue Is Problem

It was the consensus of opinion at the meeting Friday that the Johnson plan is preferred since it will give employment to farmers and other citizens of this county who are now idle, awaiting time to start their next crops. Labor is cheaper now and it could be governed better by home contractors and supervisors.

Some opposition was voiced to the bond issue. At the same time some favored it since it is the only medium through which sufficient funds may be raised for such purpose. It was hinted by some of those present that the farmers would oppose the bond issue because of the present tax rate. Details will be gone into Thursday night since several speakers, both for and against the plan, have been put on the program.

An invitation and announcement of the meeting is being sent into the rural districts so that as large a rural representation as possible be in attendance.

Marriage License Issued

Marriage licenses were issued Saturday to Echel Mitchell and Miss Bobbie Young, both of Tatum.

Not merely attractive suits—but suits at an attractive price

Veldynes and Tricotines

\$48

"You couldn't touch these
suits for less than \$85
last Fall—Mr. Rosenthal.

MOST noticeable is their straight-line, longer waisted effect. This is accentuated when the coats are worn without a belt. The coats are on the order of this sketch—some one button, others two and four button.

—Navy, brown, black.
—Sizes 14 to 38.

Simplicity is the keynote and the secret of their ultra-smartness. But little trimming used—such as bias folds of self material—double pocket effects, silk tipped slash vents. Long sight sleeves with one to four button fastening at wrist. Tailored turn

back collars mostly; some can be worn high.

—All wool materials.
—Full lined in satin.
—Fit beautifully.

They are the kind of suits that wear well—because of their splendid quality, and are always in good taste—because of their smart tailored lines. It will be a joy to know you can buy a really desirable suit for so small a price.

—Doors Open at 8 a. m.

Mr. Rosenthal's
